Professor and Department Chair. The Department of Bioengineering at George Mason University invites applications for the position of department chair and professor. The successful candidate will complement a dynamic and rapidly growing department. We are seeking a highly accomplished individual to lead the department in achieving continued excellence and national recognition, and to further encourage and foster existing collaborations with academic, clinical, and governmental institutions in the Greater Washington, DC area.

Candidates must have an earned doctorate in bioengineering, biomedical engineering, or a related field and be eligible for a tenured appointment at the rank of full professor. The successful candidate should have an outstanding research and publication record as well as a commitment for excellence in both undergraduate and graduate education. He or she should have appropriate administrative experience, including fostering interdisciplinary research/education and mentoring students, faculty and staff.

The B.S. in Bioengineering program started in 2011 with an enrollment of 64 students. The following year, it received ABET accreditation and doubled in size. As of fall 2015, 26% of our 215 undergraduate students are in the Honors College. The Ph.D. in Bioengineering program was launched in January 2015, and an M.S. in Bioengineering program is currently being planned with a projected launch date of Spring 2017. Our program is especially recognized for research in biomedical imaging, neuroengineering, biomechanics, bioinformatics, and nanotechnology, and is expected to expand significantly over the next several years. Further information about the department is available at [http://bioengineering.gmu.edu/](http://bioengineering.gmu.edu/).

George Mason University is an innovative, entrepreneurial institution with national distinction in a range of academic fields, and was ranked number one in the 2013 U.S. News and World Report “up-and-coming” list of national universities. Mason is the largest public research university in Virginia, with an enrollment of 33,723 with students studying in over 208 degree programs.

For full consideration, qualified applicants must apply online at [http://jobs.gmu.edu](http://jobs.gmu.edu) for position F9261Z, and attach a cover letter, CV, vision statement for Bioengineering Department (to be attached as ‘Other Doc’), and the names for three references with contact information. Review of applications will begin February 15, 2016 and will continue until the position is filled. Questions regarding the position should be directed to Professor Brian L. Mark, Acting Chair, Department of Bioengineering, at bmark@gmu.edu.

George Mason University is an equal opportunity employer encouraging diversity.
