Bioengineering \$1000 Scholarship in Health Care Informatics, sponsored by Deloitte Consulting

With the generous support of Deloitte Consulting, the Department of Bioengineering is pleased to announce the 2016 Bioengineering Scholarship in Health Care Informatics (BSHCI). The BSHCI is available to juniors with a declared major in Bioengineering and concentration in Bioengineering Health Care Informatics at George Mason University. Students selected for this scholarship have demonstrated strong academic performance and career goals in applying their engineering training to solve problems in health care. Selection of the BSHCI awardee may be based exclusively on merit, however compelling situations involving financial need will also be considered among the criteria. The 2016 scholarship level is **\$1,000**.

To be considered, interested students should complete this form and submit in hardcopy to the Bioengineering office (3300 Engineering Building) by **no later than noon November 30th, 2016**.

Name:

Mason email address:

Signature:

Date:

- Current cumulative Mason GPA:
- Your undergraduate major(s):
- Bioengineering Concentration:
- Number of college credits earned to date:
- Expected date to earn baccalaureate degree:
- On no more than two additional pages, address the following points:
 1. Goals and plans for your junior year
 2. Examples of your involvement in activities outside the classroom and how these activities have influenced your career interests
 3. Following graduation, short-term and long-term career goals
 4. Other factors you want the selection committee to know about you and the impact of this scholarship on you and your career.
